"Student teachers are covered by the University's insurance policies while they are teaching. That covers liability. However, it should be noted that in the case of a physical injury to a student while the student is teaching, the student is not covered by the University's worker's compensation policy because the student is not an employee of the University. The student's own insurance would have to cover any claims from such injuries, or, depending on the circumstances of the injury, the teaching site may be liable."

(D. Christiansen, 2000)

Preface

This handbook has been prepared to assist the host school, the co-operating teacher, the university supervisor, and the student teacher in successful completion of the student teaching program. Most of the guidelines contained herein are based on a twelve-week model—dates for form and project completion will vary, depending upon the actual student teaching period. Several of the programs that we offer require a variety of student teaching timelines.

Teacher preparation programs across the United States continue to evolve, calling for modifications in course work and programs to accommodate changing state certification requirements. The University of Scranton's Education Department, in recognizing the need to best prepare our educators for the future, offers programs that will prepare individuals to work specifically with children in various educational settings.

The policies, requirements, and procedures outlined here reflect the objectives of the education programs at The University of Scranton, yet allow enough flexibility to ensure the meeting of individual situations and needs. You will be provided with the information on the best way to communicate with your university supervisor upon your initial meeting.

Thank you to the teachers, school administrators, university supervisors, and student teachers who have made contributions and suggestions for this handbook. Special thanks also to the co-operating teachers and their schools for providing our student teachers with the guidance and support necessary in this final phase of their preparation program.

The Challenge

Student teaching is the culminating experience in the program of teacher education. With this experience, the student utilizes the scholarship and reflective experience in the forum of the college classroom to positively impact the learning of the P-12 experience.

The student teaching experience is an opportunity for practical application of the model of the teacher as scholar and decision-maker and for the pre-service teacher to begin to find his or her own professional identity. It is an occasion to develop skills, attitudes, and understandings about teaching and about oneself as a teacher. It is an opportunity to open areas for study, to try various techniques, and to reflect on the effectiveness of those practices on the teaching/learning experience. Emphasis on honest self-evaluation and on personal and professional self-awareness is central to a successful experience in teaching.

This opportunity presents an occasion for growth, a sense of new responsibilities, and a personal and professional challenge to the aspiring teacher. If the pre-service teacher puts forth true effort to fully realize its potential for learning and growth, the experience should prove to be rewarding and worthwhile.

Preparing to Student Teach

Please refer to the Education Department's Student Handbook for requirements, time considerations, and the application process required for student teaching.

Student teaching placement is contingent upon availability of supervisors and decisions of school administrators, and the responsibility of individual student assignment rests with the Director of Field Placement. Students are not to arrange their own placement under any circumstance. Students may not student teach in a school from which they have graduated. Students are expected to reside within driving distance from the University of Scranton when completing the student teaching semester.

When students receive their assignments, they should initiate contact with the cooperating teacher as soon as possible. This not only shows professional courtesy to the host teacher, but will also help the student teacher begin preparing and planning for the experience.

The Student Teacher

The student teacher is a representative of The University of Scranton and a guest in the host school. The student teacher, entering a professional situation, is expected to display a professional manner and is responsible for

developing a positive working relationship within the assigned school setting. Confidentiality is an important component of being in the classroom and maintaining positive relationships with administrators, faculty, staff, students, and parents. This includes maintaining privacy regarding children's personally identifiable information, academic records, and class lists (including names, addresses, phone numbers, birthdates, and any other information pertaining to students.)

Each student teacher is assigned to work with a co-operating teacher, an experienced teacher in his or her assigned grade/subject area. During the student teaching experience, the pre-service teacher will be both teacher and learner. No one is more important in helping the student teacher fill both of these roles than the co-operating teacher. The co-operating teacher can be a friend as well as mentor, counselor, and guide. Although the co-operating teacher is there to aid the student teacher, he or she has one overriding concern--the welfare of the students.

Student teachers are bound by all the rules and requirements that apply to the full-time faculty at the assigned school. They should learn those rules and requirements and feel free to ask the co-operating teacher for guidance when any questions arise. The student teacher, developing a positive working relationship within the school setting, should always confer with the co-operating teacher or university supervisor prior to taking any action.

Roles and Responsibilities of the Student Teacher

1. Learn the rules and requirements that apply to full-time faculty.
Tardiness, either at the beginning of the day or the start of a class, will not be tolerated. The working day, Monday through Friday, will be identical to that of the regular faculty.
2. The only valid excuses for absence are illness, a death in your immediate family, or a professional activity approved by the university supervisor. Any absences will be made up by the student teacher. Whenever possible, confer with your university supervisor prior to any absence. If you must be absent, it is your professional responsibility to telephone the school first. Second, you should contact the co-operating teacher so that he or she can plan to teach your classes. Third, notify your university supervisor, and, if applicable, the content area supervisor so an observational visit will not be scheduled on that day.
 - Again, it is your responsibility to have the necessary telephone numbers and/or emails to make the required contact. This data should be procured *before* the student teaching experience. **Do**

not place the responsibility of notifying the people concerned in the hands of another individual. If an emergency situation arises and you are unable to make the necessary telephone calls, ensure that a dependable individual makes them. Then, contact the university supervisor as soon as possible to explain the departure from established policy. If the university supervisor cannot be reached, call the Director of Field Experience at 570-941-7405 or the Education Department at 570-941-7421.

3. If you have assumed teaching responsibilities, you likewise have assumed the responsibility for delivering lesson plans to the co-operating teacher for use during your absence. Do not expect the co-operating teacher to step in without the necessary lesson plans, textbooks, or other relevant materials. It is good practice for you to develop a set of emergency plans to be used in the event of an absence. These can also serve as follow-up activities for lessons already taught. Update them periodically and leave them at the school. This may, in fact, be the policy for every teacher in your assigned school.
4. Learn your assigned school's guidelines and procedures for dealing with various emergency situations (unauthorized building intruders, fire drills, etc.).
5. It is expected that student teachers display professional demeanor and conduct themselves accordingly at all times. Be positive in your interactions and don't allow personal problems to interfere with fulfilling responsibilities.
 - **Dress and groom neatly at all times**—a professional appearance testifies to the student teacher's attitude towards the hosting school, the co-operating teacher, the students, and him or herself. A good general rule is to determine what is acceptable at your site and then increase that level one step up.
6. During fieldwork, student teachers enter into a privileged situation where they are exposed to a variety of confidential information. Certain materials, student records, school or classroom issues, and conversations may be of a confidential nature.
 - The dissemination of such information is considered a breach of professional ethics, which may lead to your dismissal from the school and even the program. When in doubt about an issue,

consult with your co-operating teacher and/or your university supervisor.

7. **Undergraduate student teachers are required to perform at least 10 hours of service learning.** These hours are to be approved by the University Supervisor and submitted to the Dean's Office.

The University Supervisor

The university supervisor and the co-operating teacher will work together to facilitate a productive relationship among all participants by providing the necessary support to help ensure a successful student teaching experience for everyone. This is accomplished by assuming the role of consultant, counselor, resource person, evaluator, and administrator.

Continuous feedback is crucial for your student teacher. It provides the substance needed for critical reflection allowing for improvement, refinement of necessary skills, and opportunities for growth. You will be expected to provide feedback by observing, conferring with, and assessing your student teacher. The continuous feedback to the student teacher should facilitate self-evaluation and self-improvement by the student teacher. Encourage the student teacher as he or she builds self-confidence. Collect observational data and conduct conferences that enable the student teacher to effectively engage in reflective practices, allowing for analysis of his or her lessons and implementation of modifications to instruction when needed.

PLAN → OBSERVE → CONFERENCE → ASSESS

PLAN for the observation of teaching. Conduct a pre-observation conference during which the expectations of the observation are stated.

OBSERVE the teaching of the student teacher. Take detailed notes to use during the post-observation conference. Go over the notes as soon as possible and prepare an analysis of the lesson before conferring with the student teacher.

CONFERENCE with the student teacher soon after the observation. The purpose is to give the student teacher feedback about his or her performance allowing for critical reflection by the student teacher. The conference gives the supervisor an opportunity to give valuable feedback to the student teacher. This is the time to indicate the strong

points of the lesson, the weak points of the lesson, and to question segments of the lesson that were not clearly understood by students. Give specific suggestions about performance in the classroom.

ASSESS the performance of the student teacher. Provide specific feedback regarding the lesson presentation. Look at the whole picture. As a supervisor, support the professional growth of your student teacher and help him or her develop traits needed for successfully teaching children.

Roles and Responsibilities of the University Supervisor

The university supervisor is a faculty member with significant K-12 teaching experience whose serves as the liaison between school sites and the University. After receiving school site assignments, the university supervisor makes the initial contact with his or her co-operating teachers. Prior to the start of the supervisory semester, orientation meetings are held on the University campus to introduce and explain program expectations and requirements. ***Attendance at this orientation session and meetings held throughout the semester is required.*** Weekly seminars with student teachers allow the university supervisor and student teachers the opportunity to focus on general concerns of group members and to provide materials and/or instruction as needed. These seminars are mandatory for both the supervisor and the student teachers.

The university supervisor promotes a positive relationship with the co-operating teacher by acting as a consultant in developing a quality student teaching experience. The university supervisor assists with problem solving as well as providing necessary information and materials. He or she maintains communication with the co-operating teacher and student teacher to discuss concerns and successes about the student teaching experience. The supervisor also communicates with the co-operating teacher on a regular basis to discuss and to help plan a sequential schedule for assuming teacher duties.

The supervisor aids in the development of the student teacher's self-confidence throughout the experience. Through analysis of the student teaching experience, the supervisor provides additional insights and assists the student teacher in meeting program objectives. The supervisor serves as a resource to discuss concerns about the student's teaching experience, as well as offering guidance in the areas of planning, instruction, management, and professional behavior

The supervisor will make five (5) visits to the school site during the semester. The initial visit takes place early in the student's classroom assignment. It is a courtesy visit and does not require formal observation or evaluation. Thereafter, the student teacher is observed and evaluated on a

regular basis. Supervisors record and report on a minimum of four (4) observations of lessons taught. These observations are to be evenly-spaced, approximately every fifteen days for a regular twelve-week placement, in order to determine the development of the student teacher over the entire student teaching experience.

The university supervisor will act, in accordance to criteria established throughout the handbook, to remove a student from the student teaching program in the event of unremediated difficulties when one or more of the following exists:

- ❑ Unprofessional behavior
- ❑ Lack of preparation for teacher duties
- ❑ Frequent absenteeism
- ❑ Incompetence

With the aid of the co-operating teacher's evaluations, the student teacher's log, class observations, and the student teacher's final report, the university supervisor has the responsibility of determining the final grade of his or her student teachers. Supervisors communicate with the co-operating teacher at regular intervals throughout the semester to make this determination.

The Content Area Supervisor

The content area supervisor functions in the capacity of a consultant in the area of his or her specialty. The duty of the content area supervisor is to verify that the content is being taught by the student teacher is valid. The input of the content supervisor is one source of information that the university supervisor uses to compose grades in "Planning" and in "Instruction" (areas that reflect content knowledge).

The content area supervisor visits, observes, and confers with the student teacher on the validity and the organization of the subject matter as used by the student teacher in the classroom. This includes the student teacher's knowledge of content and its adaptation to the class and pedagogy pertinent to the content.

The content area supervisor files reports on three observations of lessons taught by the student teacher. These visits are evenly-spaced throughout the semester (approximately every twenty school days) in order to observe the progress and growth of the student teacher. After each visit, the observation report is submitted to the university supervisor.

Content area supervisors conduct pre-observation conferences, if possible, to discuss the expectations that the student teacher has for the teaching of the lesson. Following the lesson, the content supervisor confers with the student teacher to discuss the lesson, to point out strengths and

weaknesses of content knowledge, and to offer suggestions for improvement. In case of an issue where content knowledge is weak, the content supervisor will notify the chair of the Education Department to discuss these matters. The content area supervisor will submit a visitation log at the conclusion of the semester.

The Co-operating Teacher

No teacher preparation program could claim success without the vital assistance of the co-operating teachers. Their role in the student teaching experience is indeed a critical one. No other person in the program can duplicate the value of the day-to-day contact that they have with the student teachers. Co-operating teachers are experienced professionals, competent in their teaching area with a commitment to their students and learning in general. They identify the apprehensions, concerns, and joys that a student teacher will experience, giving encouragement and feedback on a regular basis.

In order for the student teaching experience to accomplish its purpose in developing the competencies to meet the standards set forth by the Commonwealth of Pennsylvania, it is imperative that the co-operating teachers understand the University's Education program and help us in the final attainment of the program's outcomes. It is understood that by accepting one of our students, you are agreeing to help us in this endeavor. To accomplish these expectations, co-operating teachers will need to be aware of the outcome expectations of our program. They must also assume a role that is administrative, supervisory, collegial, and supportive. Clarification of these roles follows, but questions and dialogue concerning them is encouraged.

The following is provided to familiarize you with the Education Department's program:

- ❑ Students must apply for admission to student teaching at the beginning of the semester *prior* to the semester during which they expect to student teach.
- ❑ Student teaching applications are reviewed, and acceptance is based on the student's academic and non-academic record and performance.
- ❑ Students must complete all of their major courses, including Education and Teaching Area ones, with a grade of "C" or better, and maintain a 3.0 G.P.A. in order to be considered eligible to student teach.
- ❑ The general education program, approximately sixty-three (63) credits, constitutes the rest of the University's liberal arts curriculum

- ❑ Students must provide reports on their Act 151 PA Criminal Background Check, Act 34 PA Child Abuse History Clearance, Act 114 FBI Fingerprint Clearances, a TB test, and a signed Act 24. Clearances which report violations will result in the student being denied a student teaching placement.
- ❑ It should be noted that by the time the students have reached student teaching, they will have had multiple experiences for guided, systematic classroom observation as well as significant individualized and whole-class teaching.

The Co-operating Teacher as Colleague

Building a climate of collegiality will ease your student teacher in making the transition from “student” to “teacher.” Treat the student teacher as a professional, and do not tolerate anything other than professional behavior from the student teacher. Introduce the student teacher to the social dynamics within the school, but please be aware that student teachers are not to get involved in internal school politics. Introduce the student teacher to support personnel and explain how they impact on the functioning of the school.

You can function as a collegial co-operating teacher by doing the following:

- Familiarize the student teacher with the location/operation of copy machines, AV equipment, educational materials, computer areas, etc.
- Listen actively and reflectively. Know that your student teacher’s growth, like that of your students, is incremental, gradual, and personal.
- Provide opportunities for your student teacher to practice new skills in a low-risk setting. Suggest methodologies, strategies, and materials freely as a means of increasing your student teacher’s repertoire of available options. Allow your student teacher to experiment with new methodologies and strategies, if well planned.
- Make your student teacher feel like a contributing part of the faculty. Allow your student teacher to interact with other teachers, paraprofessionals, administrators, and parents.
- Allow the student teacher to share classroom anxieties and triumphs with you regularly.

The Co-operating Teacher as Mentor

Continuous feedback is crucial for the student teacher's improvement and refinement of necessary skills. You will be expected to provide feedback by observing, conferring with, and assessing the student teacher. The continuous feedback should facilitate self-evaluation and self-improvement by the student teacher. Encourage the student teacher as he or she builds self-confidence. Collect observational data, and conduct conferences that enable the student teacher to effectively analyze lesson plans and implement modifications to instruction when needed.

PLAN ~ OBSERVE ~ CONFERENCE ~ ASSESS

PLAN for the observation of teaching. Conduct a pre-observation conference during which the expectations of the observation are stated. Lesson plans should be checked and signed at least three (3) days prior to teaching.

OBSERVE the teaching of the student teacher. Take detailed notes to use during the post-observation conference. Go over the notes as soon as possible with the student teacher.

CONFERENCE with the student teacher soon after the observation. The conference gives the co-operating teacher an opportunity to give valuable feedback to the student teacher about his or her performance. This is the time to indicate the strong points of the lesson, the weak points of the lesson, and to question segments of the lesson that were not clearly understood by students. Give specific suggestions about performance in the classroom.

ASSESS the student teacher's performance. Look at the whole picture. Provide specific feedback regarding the lesson presentation. Support your student teacher's professional growth and help him or her develop the competencies needed for success in the classroom.

- Try to establish an appropriate balance between remaining with the student teacher and allowing him or her an opportunity for teaching independently. The co-operating teacher is expected to sign and date all lesson plans (after revisions, if necessary) as an indication that the plans are acceptable to use for teaching. No planning or poor planning by the student teacher means that he or she should not teach the lesson.
- The co-operating teacher should also complete Student Teacher Observation Forms. Again, lesson plans should be checked and signed lesson three (3) days prior to teaching.

Roles and Responsibilities of the Co-operating Teacher

In orienting the student teacher, the following are recommended as a guide to prepare for the student teacher's entrance into your classroom:

1. Inform your classroom students, as well as parents and other faculty and staff members, of the arrival of your student teacher.
2. Familiarize yourself with The University of Scranton's student teaching program by attending an orientation session on campus and reviewing the handbook.
3. Make copies of the class roster, daily schedule, and school policies and rules for your student teacher.
4. The student teacher is an emerging professional, and as such, will require a space to conduct his or her work just like a certified teacher. Provide a desk or table to serve as a workspace.
5. Acquaint your student teacher with important individuals, as well as the site and its facilities, including:
 - ❑ Administrators
 - ❑ Other teachers and staff
 - ❑ The building and classrooms
 - ❑ Philosophies and objectives of your school's program
 - ❑ School regulations and your building's handbook in general
 - ❑ School safety policies and procedures
6. Introduce the student teacher to your classes as a member of the teaching team.

Please keep in mind that a positive orientation to the student teaching experience provides the student teacher with a sense of belonging that goes far toward fostering his or her professional growth and development.

Guidelines for Co-operating Teachers

- The student teacher should begin his or her experience by teaching a single course, with more eventually being added at the discretion of the co-operating teacher and the university supervisor. This should culminate in a minimum **at least** three weeks of full-time teaching.
- The co-operating teacher should assign the student teacher to duties beyond the classroom to aid in the awareness of the total school program, be available for discussions during the

university supervisor's announced visits, and warn the student teacher of unprofessional behaviors before they become habitual.

- The co-operating teacher should contact the university supervisor immediately if the student teacher is absent unexpectedly, is chronically late, displays unprofessional behavior, is unplanned or unprepared for class, becomes involved in school politics, or shows any evidence of incompetence, all of which may threaten successful completion of the program.

Resources for Co-operating Teachers

The co-operating teacher is invited to make use of the University's Curriculum Laboratory located in the Weinberg Library (570-941-7526). Your student teacher can help you locate materials to complement your program. Faculty members of the Education Department are also available as resources. Please feel free to call on members if you are in need of their assistance.

Final Assessment

Assessment is based on the assumption that every student teacher develops minimum competence in all areas specified by the competencies. For successful completion, this needs to be verified by various observers, including the co-operating teacher. Assessment is both continuous and comprehensive. The assessment criteria below (also found on the Student Teacher Advancement Toward Outcomes Form) are the same by which the final evaluation of the student teacher's performance will be made. In the following areas, the student teacher should do the following:

Planning and Evaluation

- Demonstrate content knowledge appropriate to students' developmental levels
- Write clear objectives in a variety of formats appropriate to the lessons
- Use a variety of instruction, assessment and technology appropriate to concepts and grade level
- Design instruction to target individual student needs incorporating state and professional standards
- Assess students' prior knowledge in planning for effective instruction

Classroom / Individualized Instruction

- Organize classroom environment and learning experiences that promote effective whole class, small group, and individualized instruction
- Effectively communicate accurate and appropriately sequenced lesson content
- Monitor student understanding to assess progress and effectively modifies lesson content and/or instructional strategies
- Use strategies to facilitate student motivation and active learning
- Use appropriate grammar and sentence structure

Classroom Management

- Create and maintains an environment conducive to learning
- Clearly communicate expectations for learner behavior
- Promptly identify off-task behaviors and use a variety of low profile interventions
- Respond appropriately to continued off-task behaviors and major disruptions
- Create and maintain a positive, inclusive learning environment

Professional Growth & Development

- Exercise the need for discretion when dealing with students, parents, and professionals
- Maintain confidentiality in dealing with school matters
- Fulfill professional responsibilities promptly and consistently
- Engage in reflective practice and set goals for improvement
- Accept and use feedback

The University of Scranton Education Department Student 6 Week Student Teaching Time Table

The following time table is only a **guide**. Please communicate with your student teacher and his or her university supervisor to come to an agreement of duties will start to be carried out and/ or when your student teacher's lessons will begin.

| | |
|--------|--|
| Week 1 | Observations/ Lessons Begin |
| Week 2 | Take on increasing teaching & responsibility load |
| Week 3 | Continue increasing teaching & responsibility load |
| Week 4 | Transition to full time teaching |
| Week 5 | Full time teaching |
| Week 6 | Full time teaching & transition back to co-operating teacher |

Co-operating Teacher Checklist

Received from the University of Scranton

- ☐ Handbook
- ☐ Observation Forms
- ☐ Mid-Term Evaluation Form
- ☐ Final Evaluation Form

Materials Distributed from School to Student Teacher

- ☐ School and District Policy and Procedure Handbook
- ☐ School Calendar
- ☐ Classroom Schedule
- ☐ Textbooks and/or guidebooks

Student Teacher Orientation

- ☐ Prepare Classroom Students for Student Teacher
- ☐ Prepare Student Teacher for Classroom Students
- ☐ Collaborate with Student Teacher and University Supervisor to phase in Student Teacher Lessons
- ☐ Correct Student Teacher Lesson Plans
- ☐ Complete and Discuss Observation Forms
- ☐ Complete and Discuss Final Evaluation
- ☐ Gradually Assume Full Teaching Responsibility

SPECIAL EDUCATION PLACEMENT

The student teacher is a representative of The University of Scranton and is a guest in the host school. As he or she is entering a professional situation, it is fully expected that a professional manner will be displayed at all times.

ATTENDANCE LOG

Student teachers will maintain a daily log, signed by their co-operating teachers, reflecting their attendance throughout student teaching. It must be available upon request by the university supervisor and the co-operating teacher (and others, if deemed necessary). The student teacher will follow the holiday and inclement weather schedules of his or her assigned site.

CLASSROOM MANAGEMENT/POSITIVE BEHAVIORAL SUPPORT PLANS

Student teachers will prepare a class-wide behavior management plan consistent with the needs of their students in one of their assigned classes. This may be in the form of a detailed report on current plans/procedures employed in their classroom or a new appropriate plan. Students will also conduct and document a functional assessment leading to an individualized positive behavior support plan for at least one student.

DATA-BASED DECISION MAKING

Student teachers will provide objective evidence of data-based decision making during each student teaching assignment. This can be in the form of classroom records, graphs, and daily/weekly probes or other means as agreed upon by the student teacher, the co-operating teacher and/or the university supervisor.

PROFESSIONAL ACTIVITIES

Student teachers will provide objective evidence of active professional engagement and peer contact/communication outside of routine classroom responsibilities. This can be in the form of notes from professional meetings, calendar/journal entries regarding IEP and other meetings, or minutes verifying attendance at school or professional committees or other professional functions.

PARENT INVOLVEMENT

Student teachers will provide objective evidence of active parent contact/communication. This can be in the form of notes from parent meetings, copies of parent contact logs or calendar/journal entries regarding IEP and other meetings.

CO-OPERATING TEACHER ASSESSMENT

Student teachers will be assessed by their co-operating teachers in a variety of areas regarding their ability to implement “best practices” of special education. This will occur at least four (4) times--two (2) times during each 6 week placement. Forms will be provided for this purpose and copies of these assessments will be retained by the student teacher.

UNIVERSITY SUPERVISOR OBSERVATIONS

Student teachers will be observed on many occasions. At least four (4) of these observations--two (2) during each student teaching placement--will be documented on forms provided for this purpose. Copies of these observations will be retained by the student teacher.

SELF-EVALUATION

Student teachers will conduct at least (3) Advancement Toward Outcomes, addressing Planning and Evaluation, Classroom / Individualized Instruction, Classroom Management, and Professional Growth and Development—two (2) at the first site, one (1) at the second site ***as well as a final self-analysis***. Assessments will be conducted at the fourth and eighth week of each assignment. For the first three, students will use the “Advancement Toward Outcomes” form. The fourth and final self-analysis will be a two-page typed paper to be completed at the conclusion of the student teaching experience, reflecting upon the entire student teaching experience (Self-Analysis) while still focusing on the same four areas on the form. The student teacher and the co-operating teacher should hold a conference to discuss the evaluations after each has completed the forms independently. A three-way conference with the university supervisor is advisable whenever possible.

SEMINARS

Student teachers must attend all seminars run by their university supervisor. These will typically be scheduled on a weekly basis and may be held at various school or university sites.

Roles and Responsibilities of the Special Education Student Teacher

In order to gain the full value of the co-operating teacher’s knowledge and experience, the student teacher is expected to discuss his or her plans with the co-operating teacher prior to teaching the lesson. Each plan, along with supporting materials, must be reviewed and approved by the co-operating teacher in advance of the scheduled class. This must be documented with the co-operating teacher’s signature and date. These plans

should be discussed well enough in advance for the student teacher to gain the full value of the co-operating teacher's knowledge and experience. Lesson plans will be submitted at least three (3) days in advance of teaching the lesson to give the co-operating teacher the opportunity to provide feedback. The co-operating teacher has a wealth of content knowledge, and in order to derive the full pedagogical benefit and knowledge, the student teacher will discuss lesson plans prior to his or her lesson.

The student teacher will:

1. Demonstrate and maintain appropriate professional behaviors and demeanor consistent with the expectations of The University of Scranton's Education Department and the teacher, school, and district to which the student is assigned. This includes (but is not limited to) professional time frames, dress, language, and social conduct, as well as adherence to all regulations and expectations of an educator at the assigned school.
2. Demonstrate competency as a student teacher representing the University's Education Department.
3. Attend all assigned teaching days and seminars. Exceptions will only be made for serious illness and/or serious family emergencies such as death and bereavement. Absences (including excused absences) will be made up within the semester that student teaching is conducted.

The student teacher is expected to do the following:

- ❑ Teach students in a progressively more responsible manner leading to independent responsibility for the entire classroom at each assignment.
- ❑ Conduct teaching activities in a manner consistent with "best practices" of the Special Education profession and within the ethical parameters of the Council for Exceptional Children. This should include, but not be limited to, group and individual instruction, scheduling, individual and class-wide behavior management planning, materials development (e.g., learning stations, bulletin boards, and worksheets), classroom seating and organization, collaborating with other professionals, etc.
- ❑ Write and implement lesson plans consistent with the special needs of students and approved by the cooperating teacher. A format for lesson plans may be prescribed by the co-operating teacher or the university supervisor.

- ❑ Attend parent and professional meetings (typical of those engaged in by teachers at the assigned school) as required by the co-operating teacher, the host school, or the university supervisor.
- ❑ Engage in non-classroom responsibilities (typical of those engaged in by teachers at the assigned school) before, during and after regular school hours as required by the co-operating teacher, the host school, or the university supervisor.
- ❑ Maintain a work and teaching schedule comparable to that of the teachers to which the student is assigned and to other teachers in the school.
- ❑ Complete and submit required forms and documentation consistent with the Student Teacher Handbook and other material as requested by the co-operating teacher and/or the university supervisor.

Failure to submit records and designated items as scheduled will adversely affect your final student teaching grade.

ROLES AND RESPONSIBILITIES OF THE CO-OPERATING TEACHER

The co-operating teacher serves as a host, mentor, and role model for the student teacher. The co-operating teacher is requested to do the following:

1. Observe, assess, and supervise the student teacher in multiple special education activities.
2. Provide professional direction and support for the student teacher, which includes identifying areas of weakness and recommendations for improvement.
3. Document student growth and accomplishments informally (through conversations with the university supervisor and the student teacher) as well as formally (via documents provided by the University).
4. Lead the student teacher through successive levels of independence culminating in full instructional responsibility for the assigned class.
5. Communicate with the university supervisor as needed.

ROLES AND RESPONSIBILITIES OF THE UNIVERSITY SUPERVISOR

The university supervisor is a consultant who acts as a liaison between the University's Education Department and the student teacher and the co-operating teacher, and is there for their mutual support. The university supervisor will do the following:

1. Facilitate the initial student placement in the assigned classroom and transition between placements.
2. Meet regularly with the co-operating teacher and student.
3. Observe and assess student teachers and collect forms and assignments as needed.
4. Conduct regularly-scheduled meetings and seminars with student teachers.
5. Act to resolve problems identified by the co-operating teacher in a timely manner. This may include the removal or change of a student assignment following other appropriate consultation and remedial actions. Removal or change is typically reserved for cases of serious incompatibility, lack of preparation, frequent absences, unsatisfactory performance, or other unprofessional behaviors.

EARLY CHILDHOOD EDUCATION PLACEMENT

The student teacher is a representative of the University of Scranton and is a guest in the host school. As he or she is entering a professional situation, it is fully expected that a professional manner will be displayed at all times. The student teacher will follow the holiday and inclement weather schedules of his or her assigned site.

OBSERVATIONS

The student teacher begins the student teaching experience with classroom observations. These observations will cover a wide range of academic (including mathematics, science, social studies, language arts, art, music, and health activities) as well as non-academic (story time, lunch, snack, and structured/unstructured play activities) experiences. The student teacher may be asked by the university supervisor to keep an accurate record of all observations.

LESSON PLANNING

Effective teaching requires both long-term and daily planning. The student teacher is required to prepare a detailed lesson plan for all subjects to be taught.

Detailed plans are needed because:

- ❑ They help maintain direction in the event of interruptions or emergencies.
- ❑ They keep objectives visible.
- ❑ They provide freedom and flexibility while teaching by providing a solid framework for material to be covered.
- ❑ They help to prevent issues that may arise due to lack of preparation.

In order to gain the full value of the co-operating teacher's knowledge and experience, the student teacher is expected to discuss his or her plans with the co-operating teacher prior to teaching the lesson. Each plan, along with supporting materials, must be reviewed and approved by the co-operating teacher in advance of the scheduled class. This must be documented with the co-operating teacher's signature and date. These plans should be discussed well enough in advance for the student teacher to gain the full value of the co-operating teacher's knowledge and experience. Lesson plans will be submitted at least three (3) days in advance of teaching the lesson to give the co-operating teacher the opportunity to provide feedback. The co-operating teacher has a wealth of content knowledge, and in order to derive the full pedagogical benefit and knowledge, the student teacher will discuss lesson plans prior to his or her lesson.

TEACHING

The student teacher will begin accepting teaching duties as early as both the student teacher and the co-operating teacher believe would be beneficial. Teaching responsibilities will gradually increase until the student teacher is assuming full responsibility for the entire day. It is expected that student teacher will have teaching responsibilities (story time, calendar activities, etc.) by his or her second or third day in the classroom. Teaching time is defined as any time during which you are responsible for a group of students' learning and behavior (e.g., story time, recess or nap, small group instruction, opening activities, etc.). Teaching assignments must include mathematics, science, social studies, language arts, health, and expressive arts. It should be remembered that at all times the co-operating teacher is the master teacher and ultimately responsible for classroom activities. The student teacher will teach in accordance with this understanding.

SYSTEMATIC OBSERVATION

At the beginning of the classroom experience, student teachers are required to systematically observe, document, and report on four (4) students. A varied cross-section of pupils should be chosen as subjects, with real names not used for reasons of confidentiality. Each of the four descriptive paragraphs should include information regarding the physical, social, emotional, and cognitive development of the child. These paragraphs will be due at the second student teaching seminar. A second paragraph on each student will be written and submitted at the end of student teaching, noting any changes observed. Thus, a total of eight (8) observational reports are to be completed.

PROFESSIONAL ACTIVITIES

The Early Childhood Education student teacher is required to assume the non-teaching duties that are a part of the assignment of the co-operating teacher (e.g., lunch duty, recess duty, bus duty, bulletin board, material preparation, etc.). It is expected that the student teacher attend school functions like P.T.O meetings, workshops, and back-to-school nights.

THE JOURNAL

The student teacher is required to maintain a daily reflective journal during student teaching. This journal should contain comments concerning the teacher's role, an understanding of that role, interesting events, unusual happenings, and personal reflections on the teaching task. The journal should not recap the day's teaching, but instead be an opportunity for reflection on the day's events and their effect on the student teacher as an individual and a professional. **Confidentiality is of major importance.**

Thus, student and teacher names should not be used.

SELF-EVALUATION

Student teachers will conduct at least four (4) self-assessments addressing Planning and Evaluation, Classroom/Individualized Instruction, Classroom Management, and Professional Growth and Development.

Assessments should be conducted at the third and sixth week of each assignment. For the first three, students will use the "Advancement Toward Outcomes" form. The fourth and final self-assessment will be a two-page typed paper to be completed at the conclusion of the student teaching experience, reflecting upon the entire student teaching experience while still focusing on the same four areas on the form. The student teacher and the co-operating teacher will hold a conference to discuss the evaluations after each has completed the forms independently. A three-way conference with the university supervisor is advisable whenever possible.

PROFESSIONAL SEMINAR

The student teacher is required to attend the weekly professional seminar that is conducted by the university supervisor. Seminars are an integral part of the early childhood student teaching experience, providing the support necessary to successfully negotiate this important time in one's pre-service training. Seminars give the university supervisor an opportunity to provide resources, information, and guidance to the student teacher. All student teachers are expected to be active participants.

ITEMS FOR SUBMISSION

The university supervisor will require submission of the following materials periodically:

- ❑ Co-operating teacher observations/evaluations
- ❑ Self-evaluations
- ❑ Systematic observations of classroom students
- ❑ Student teaching journal

Final submission after completion of the student teaching experience includes the following:

- ❑ Final co-operating teacher evaluation
- ❑ Final self-evaluation
- ❑ Final systematic observations of classroom students
- ❑ Professional activities log
- ❑ Student teaching journal

Failure to submit records and designated items as scheduled will adversely affect your final student teaching grade.

MIDDLE LEVEL EDUCATION PLACEMENT

The student teacher is a representative of The University of Scranton and is a guest in the host school. As he or she is entering a professional environment, it is fully expected that a professional manner will be displayed at all times.

TIME REQUIREMENTS

The student teacher will follow the regular teacher day for the assigned placement. The student teacher will follow the holiday and inclement weather schedules of his or her assigned site.

OBSERVATIONS

The student teacher begins the student teaching experience with classroom observations. These observations should include classes of the co-operating teacher, of other teachers in the school, and of non-academic activities. These non-academic activities can include, but are not limited to, supervised activities sponsored by the school or other public agencies. Some of this observation time will be spent in the early weeks of the student teaching experience as the student familiarizes him- or herself with the routine of the classroom to which he or she is assigned. Other time for observation can be completed at the end of the assignment as the cooperating teacher begins to resume teaching duties and responsibilities. The student teacher may be asked by the university supervisor to keep an accurate record of all observations.

LESSON PLANNING

Effective teaching requires both long-term and daily planning. The student teacher is required to have prepared a detailed lesson plan for all subjects to be taught.

Detailed plans are needed because:

- ❑ They help maintain direction in the event of interruptions or emergencies.
- ❑ They keep objectives visible.
- ❑ They provide freedom and flexibility while teaching by providing a solid framework for material to be covered.
- ❑ They help to prevent issues that may arise due to lack of preparation.

The student teacher will begin by teaching a single subject, with subjects being added at the discretion of the co-operating teacher and the university

supervisor until the student teacher is assuming the full teaching load. The student teacher will eventually teach full-time for at least three (3) weeks.

SYSTEMATIC OBSERVATIONS

At the beginning of their classroom experience, student teachers are required to systematically observe, document, and report on five (5) students. A varied cross-section of pupils should be chosen as subjects, with real names not used for reasons of confidentiality. Each of the five descriptive paragraphs should include information regarding the physical, social, emotional, and cognitive development of the child. A second paragraph on each student will be written and submitted at the end of student teaching, noting any changes observed. Thus, a total of ten (10) observational reports are to be completed. Paragraphs will be submitted to the university supervisor according to the schedule given at the weekly seminar.

PROFESSIONAL ACTIVITIES

The Middle Level Education student teacher is required to assume the non-teaching duties that are a part of the assignment of the co-operating teacher (e.g., lunch duty, recess duty, bus duty, bulletin board, material preparation, etc.). It is expected that the student teacher attend school functions like P.T.O/ P.T.A. meetings, workshops, and back-to-school nights. Non-teaching activities should be noted on the record of hours form but should not be counted as hours toward observation or teaching time.

THE JOURNAL

The student teacher is required to maintain a daily reflective journal during student teaching. This journal should contain comments concerning his or her role as a teacher as well as an understanding of that role, interesting events, unusual happenings, and personal reflections on the teaching task. The journal should not recap the day's teaching, but should instead be an opportunity for reflection on the day's events and their effect on the student teacher as an individual and a professional. Confidentiality is of major importance. Thus, student and teacher names should not be used.

SELF-EVALUATION

Student teachers will conduct at least four (4) self-assessments addressing Planning and Evaluation, Classroom / Individualized Instruction, Classroom Management, and Professional Growth and Development. For the first three, students will use the "Advancement Toward Outcomes" form. The fourth and final self-assessment will be a two-page typed paper to be completed at the conclusion of the student teaching experience, reflecting upon the entire student teaching experience while still focusing on the same four areas on the form. The student teacher and the co-operating teacher

should hold a conference to discuss the evaluations after each has completed the forms independently. A three-way conference with the university supervisor is advisable whenever possible.

PROFESSIONAL SEMINAR

The student teacher is required to attend the weekly professional seminar that is conducted by the university supervisor. Seminars are an integral part of the student teaching experience, providing the support necessary to successfully negotiate this important time in one's pre-service training. Seminars give the university supervisor an opportunity to provide resources, information, and guidance to the student teacher. All student teachers are expected to be active participants.

ITEMS FOR SUBMISSION

The university supervisor will require submission of the following materials periodically:

- ❑ Co-operating teacher observations/evaluations
- ❑ Self-evaluations
- ❑ Systematic observations of classroom students
- ❑ Student teaching journal

Final submission after completion of the student teaching experience includes the following:

- ❑ Final co-operating teacher evaluation
- ❑ Final self-evaluation
- ❑ Final systematic observations of classroom students
- ❑ Professional activities log
- ❑ Student teaching journal

Failure to submit records and designated items as scheduled will adversely affect your final student teaching grade.

SECONDARY EDUCATION PLACEMENT

The student teacher is a representative of the University of Scranton and is a guest in the host school. As he or she is entering a professional environment, it is fully expected that a professional manner will be displayed at all times.

TIME REQUIREMENTS

The student teacher will follow the regular teacher day for a minimum of twelve (12) weeks or sixty (60) school days. The student teacher will follow the holiday and inclement weather schedules of his or her assigned site.

OBSERVATIONS

The student teacher begins the student teaching experience with classroom observations. These observations must include a combination of classes of the co-operating teacher, other teachers in the content area or department, teachers in other subject areas, and of non-academic activities. Some of this observation time will be spent in the early weeks of the student teaching experience as the student familiarizes himself or herself with the routine of the assigned classroom. Other time for observation can be completed at the end of the assignment, as the co-operating teacher begins to resume teaching duties and responsibilities. The student teacher may be asked by the university supervisor to keep an accurate record of all observations.

Formal observations should be submitted according to the following time table:

- ☐ after fifteen (15) days in the classroom
- ☐ after thirty (30) days in the classroom
- ☐ after forty-five (45) days in the classroom
- ☐ after sixty (60) days in the classroom

LESSON PLANNING

Effective teaching requires both long-term and daily planning. The student teacher is required to have prepared a detailed plan for all classes to be taught.

Detailed plans are needed because:

- ☐ They help maintain direction in the event of interruptions or emergencies.
- ☐ They keep objectives visible.
- ☐ They provide freedom and flexibility while teaching by providing a solid framework for material to be covered.
- ☐ They help to prevent issues that may arise due to lack of preparation.

In order to gain the full value of the co-operating teacher's knowledge and experience, the student is expected to discuss his or her plans with the co-operating teacher prior to teaching the lesson. Each plan, along with supporting materials, must be reviewed and approved in advance of the scheduled class. This must be documented with the co-operating teacher's signature and date. Lesson plans will be submitted at least three (3) days in advance of teaching the lesson to give the co-operating teacher the opportunity to provide feedback. The co-operating teacher has a wealth of content knowledge, and in order to derive the full pedagogical benefit and knowledge, the student teacher will discuss lesson plans prior to his or her lesson.

TEACHING

All teaching plans must be kept on file along with copies of tests, quizzes, handouts, etc., and be available for review by the university supervisor at any given time. The student teacher should begin teaching duties as early as both the student teacher and the co-operative teacher believe would be beneficial. The student teacher will begin by teaching a single class, with classes being added at the discretion of the co-operating teacher and university supervisor until the student teacher is assuming the full teaching load. The student teacher will eventually teach full time for at least three (3) weeks.

SYSTEMATIC OBSERVATIONS

At the beginning of their classroom experience, student teachers are required to systematically observe, document, and report on five (5) students. A varied cross-section of pupils should be chosen as subjects, with real names not used for reasons of confidentiality. Each of the five descriptive paragraphs should include information regarding the physical, social, emotional, and cognitive development of the child. A second paragraph on each student will be written and submitted at the end of student teaching, noting any changes observed. Thus, a total of ten (10) observational reports are to be completed. Paragraphs will be submitted to the university supervisor according to the schedule given at the weekly seminar.

PROFESSIONAL ACTIVITIES

The Secondary Education student teacher is required to assume the non-teaching duties that are a part of the assignment of the co-operating teacher (e.g., lunch duty, bus duty, bulletin board, material preparation, etc.). It is expected that the student teacher attend school functions like P.T.O meetings, workshops, and back-to-school nights. Non-teaching activities should be noted on the record of hours form but should not be counted as hours toward observation or teaching time.

THE JOURNAL

The student teacher is required to maintain a daily reflective journal during student teaching. This journal should contain comments concerning his or her role as a teacher as well as an understanding of that role, interesting events, unusual happenings, and personal reflections on the teaching task. The journal should not recap the day's teaching, but should instead be an opportunity for reflection on the day's events and their effect on the student teacher as an individual and a professional. Confidentiality is of major importance. Thus, student and teacher names should not be used.

SELF-EVALUATION

Student teachers will conduct at least four (4) self-assessments addressing Planning and Evaluation, Classroom / Individualized Instruction, Classroom Management, and Professional Growth and Development. For the first three, students will use the "Advancement Toward Outcomes" form. The fourth and final self-assessment will be a two-page typed paper to be completed at the conclusion of the student teaching experience, reflecting upon the entire student teaching experience while still focusing on the same four areas on the form. The student teacher and the co-operating teacher will hold a conference to discuss the evaluations after each has completed the forms independently. A three-way conference with the university supervisor is advisable whenever possible.

PROFESSIONAL SEMINAR

The student teacher is required to attend the weekly professional seminar that is conducted by the university supervisor. Seminars are an integral part of the students teaching experience, providing the support necessary to successfully negotiate this important time in one's pre-service training. Seminars give the university supervisor an opportunity to provide resources, information, and guidance to the student teacher. All student teachers are expected to be active participants.

ITEMS FOR SUBMISSION

The university supervisor will require submission of the following materials periodically:

Mid-term evaluation due after:

- 30 days in classroom

Final submission after completion of the student teaching experience includes the following:

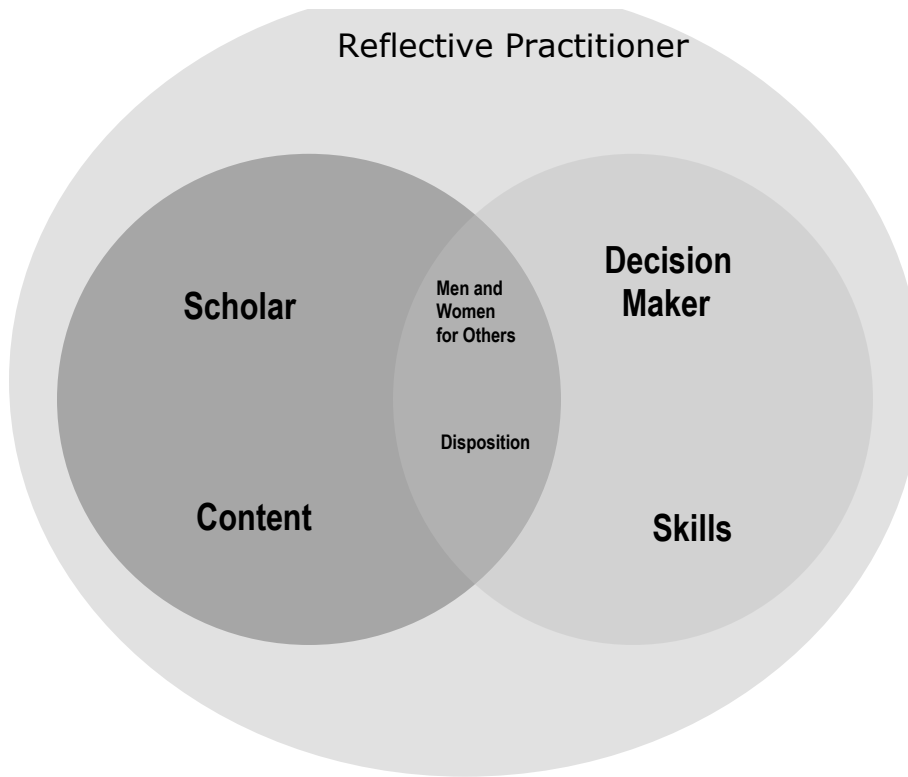

- ❑ Final co-operating teacher evaluation
- ❑ Final self-evaluation
- ❑ Final systematic observations of classroom students
- ❑ Professional activities log
- ❑ Student teaching journal

Failure to submit records and designated items as scheduled will adversely affect your final student teaching grade.

In conclusion, communication between parties and adherence to Handbook policies is essential for successful completion of the student teaching experience. Again, we in the Education Department at The University of Scranton wish to express our thanks and appreciation to the teachers and administrators in area schools who continue to assist us in preparing student teachers to become professional educators in the increasingly-challenging yet richly-rewarding art of teaching.

Appendices

The Unit's Scholar/Decision-Maker Model

Actively Seeking Knowledge and Making Reasoned Professional Decisions

The largest circle represents the reflective practitioner, combining all aspects of the teacher candidate as a scholar and decision-maker. Advocacy for reflection is found in the pragmatic philosophy of education espoused by Dewey (1933, pg.2). Dewey believed that the most important teacher quality is the ability to engage in critical reflection. Dewey viewed reflective thought as an active, persistent, and careful consideration of any belief or supposed form of knowledge in light of the grounds supporting it and future conclusions to which it tends (Dewey, 1933, pg.6). It is for these reasons that the **Unit** provides teacher candidates and educators with multiple opportunities for reflective practice throughout all programs in both informal and formal ways.

The Scholar/Decision-Maker Conceptual Framework Model lays the groundwork for success among professionals in education. Educators who actively seek knowledge and make reasoned professional decisions are bound to be successful and, equally important, pass these characteristics on to students in order to make them lifelong learners.

Student Teacher Performance Assessment

The Education Department uses a variety of assessment tools in order to monitor its student teachers. Two meetings are held throughout the course of the semester in order to orient local teachers to the philosophy of the Department.

Weekly meetings are held, in which the student teachers are grouped (approximately four to five per group) according to their majors, where university supervisors monitor student teacher paperwork, review co-operating teacher notes, track student hours of observation and teaching, and discuss individual their areas of weaknesses or strengths. These group formats are further supplemented by individual meetings between University faculty, co-operating teachers, and student teachers, where progress in various areas of actual teaching duties are analyzed.

The following forms are used to assess student teachers:

Formal Observation Forms: The forms are divided in half and allow for areas of strengths and areas of improvement. Co-operating teachers should evaluate at least one lesson every fifteen days (for a minimum total of four formal observations) and discuss the formal observation forms with student teachers immediately after completion.

Mid-Term Evaluation: This form is to be complete at the mid-point so that the student teacher can see the areas that are developing as well as the ones that are in need of more attention. This form targets specific areas of professional growth, classroom management, planning, and instruction.

Student Teacher Advancement Toward Outcomes Evaluation Form (completed twice per student teacher each semester and four times by the student teacher). This form evaluates the following areas: Planning and Evaluation, Classroom/Individualized Instruction, Classroom Management, and Professional Growth & Development. Supervisors and students address these areas using prose.

Final Student Teacher Evaluation Form (filed at the completion of the student teaching experience by both the university supervisor and the co-operating teacher). This form addresses the same areas as above but the supervisor rates these areas according to a scale.

PDE's Statewide Evaluation Form for Student Professional Knowledge and Practice (completed twice per student teacher each semester by the university supervisor)

Individual Lesson Plans Co-operating teachers must approve student teacher lesson plans two to three days before the actual lesson is taught. Additionally, on the form, students must reflect upon the lesson plan as to its strengths and weaknesses. Elementary Education majors' lessons are evaluated formally at least eight times, while Secondary Education majors have an additional three formal observations by content area supervisors.

Other Forms Additionally, there are forms that track student teacher attendance, teaching and observation hours, and out-of-classroom professional activities. These forms are currently in a state of transition and are being revised.

As Decision-Makers, Teachers...

Five Core Propositions of the National Board for Professional Teaching Standards

| | | | | |
|---|---|--|---|---|
| Teachers are committed to students and their learning. Accomplished teachers develop students' cognitive capacity and their respect for learning. They foster students' self-esteem, motivation, character, civic responsibility and their respect for individual, cultural, religious and racial difference. | Teachers know the subjects they teach and how to teach those subjects to students. Accomplished teachers have an instructional repertoire that allows them to create multiple paths to the subjects they teach, and they are adept at teaching students how to pose and solve problems. | Teachers are responsible for managing and monitoring student learning. Accomplished teachers can assess the progress of individual students as well as that of the class as a whole. They employ multiple methods for measuring student growth and understanding and can clearly explain student performance to parents. | Teachers think systematically about their practice and learn from experience. Striving to strengthen their teaching, accomplished teachers critically examine their practice, seek to expand their repertoire, deepen their knowledge, sharpen their judgment and adapt their teaching to new findings, ideas and theories. | Teachers are members of learning communities. Accomplished teachers find ways to work collaboratively and creatively with families and other who support the student, engaging them productively in the work of the school. |

| Creates & maintains an environment conducive to learning. | 1 2 3 4 5 N/A | |
| Clearly communicates expectations for learner behavior. | 1 2 3 4 5 N/A | |
| Promptly identifies off-task behaviors & uses a variety of low-profile interventions. | 1 2 3 4 5 N/A | |
| Responds appropriately to continued off-task behaviors & major disruptions. | 1 2 3 4 5 N/A | |
| Creates & maintains a positive inclusive learning environment. | 1 2 3 4 5 N/A | |
| PLANNING | | |
| Demonstrates content knowledge appropriate to students' developmental levels. | 1 2 3 4 5 N/A | |
| Writes clear objectives in a variety of formats appropriate to the lessons. | 1 2 3 4 5 N/A | |
| Uses a variety of instruction, assessment & technology appropriate to concepts & grade level with attention to the diverse needs of learners. | 1 2 3 4 5 N/A | |
| Designs instruction to target individual student needs incorporating state & professional standards. | 1 2 3 4 5 N/A | |
| Assesses students' prior knowledge in planning for effective instruction. | 1 2 3 4 5 N/A | |
| INSTRUCTION | | |
| Organizes classroom environment & learning experiences that promote effective whole class, small group, & individualized instruction. | 1 2 3 4 5 N/A | |
| Effectively communicates accurate & appropriately sequenced lesson content. | 1 2 3 4 5 N/A | |
| Monitors student understanding to assess progress & effectively modifies lesson content and/or instructional strategies. | 1 2 3 4 5 N/A | |
| Uses strategies to facilitate student motivation & active learning. | 1 2 3 4 5 N/A | |
| Uses appropriate grammar & sentence structure. | 1 2 3 4 5 N/A | |

Evaluation Checklist for Assessing the Special Education Students Teacher's Progress Toward Outcomes

Student Teacher _____ School _____ Co-operating Teacher _____ Date _____

LOW**HIGH**

| Professional Growth in Special Education | Consistently Demonstrates | Recommendations |
|---|----------------------------------|------------------------|
| Demonstrates an increasing level of professional independence & responsibility | 1 2 3 4 5 N/A | |
| Works collaboratively with other special educators, general educators, & related service staff | 1 2 3 4 5 N/A | |
| Routinely uses methods to remain current regarding research-validated practices | 1 2 3 4 5 N/A | |
| Seeks & accepts feedback & reflects on one's practice | 1 2 3 4 5 N/A | |
| Uses appropriate professional language & terminology | 1 2 3 4 5 N/A | |
| Classroom Behavior Management | Consistently Demonstrates | Recommendations |
| Employs positive procedures to strengthen appropriate student/learner behaviors | 1 2 3 4 5 N/A | |
| Develops/maintains appropriate class-wide behavior management plans | 1 2 3 4 5 N/A | |
| Anticipates potential problems & intervenes/redirects to positive student outcomes | 1 2 3 4 5 N/A | |
| Employs behavior interventions that conform to local regulations & national (CEC) ethical standards | 1 2 3 4 5 N/A | |
| Develops & implements individualized positive behavior support plans | 1 2 3 4 5 N/A | |
| Instructional Planning and Documentation | Consistently Demonstrates | Recommendations |
| Participates in IEP planning process & prepares appropriate IEP goals & objectives | 1 2 3 4 5 N/A | |
| Conducts & interprets both formal & informal individualized assessments | 1 2 3 4 5 N/A | |
| Maintains individual & classroom assessment data | 1 2 3 4 5 N/A | |
| Prepares individual, daily, weekly lesson plans that reference state standards | 1 2 3 4 5 N/A | |
| Adapts tests, quizzes & standardized assessment tools as needed | 1 2 3 4 5 N/A | |
| Instruction | Consistently Demonstrates | Recommendations |
| Links instruction to informal & formal assessment data | 1 2 3 4 5 N/A | |
| Individualizes instruction to conform with students monitoring data, IEP goals & objectives | 1 2 3 4 5 N/A | |
| Adapts sequence/content of lesson plans as needed | 1 2 3 4 5 N/A | |
| Uses strategies to facilitate inclusion in all school settings (CC4S1) | 1 2 3 4 5 N/A | |
| Selects, adapts & uses research-supported instructional strategies & materials according to characteristics of the individual (CC4S4) | 1 2 3 4 5 N/A | |
| Uses strategies to facilitate maintenance & generalization of skills | 1 2 3 4 5 N/A | |
| Uses response & errors to guide instructional decisions & provide feedback to all learners (IC4S6) | 1 2 3 4 5 N/A | |
| Provides instruction in community-based settings | 1 2 3 4 5 N/A | |
| Incorporates paraprofessionals and other specialists in instructional activities. | 1 2 3 4 5 N/A | |
| Adaptations and Assistive Technology and Communication | Consistently Demonstrates | Recommendations |
| Adaptation of the physical environment to provide optimal learning opportunities for individuals with disabilities. (IC5K3) | 1 2 3 4 5 N/A | |
| Uses appropriate adaptations & assistive technology | 1 2 3 4 5 N/A | |
| Develops communication & social interaction opportunities | 1 2 3 4 5 N/A | |
| Implements universal health precautions as appropriate | 1 2 3 4 5 N/A | |
| Uses alternative communication modalities & adaptive communication devices as needed | 1 2 3 4 5 N/A | |
| Maintains confidentiality in all aspects of special education service delivery | 1 2 3 4 5 N/A | |
| Communicates & involves families | 1 2 3 4 5 N/A | |

The University of Scranton
NCSS Citizenship Education Standards
(SEC ED Citizenship ONLY)

Student Teacher Evaluation Form: Thematic Standards Performance Evidence

This form is to be completed by the university supervisor and the co-operating teacher at least twice for each student teacher during the student teacher's twelve-week placement.

Student Teacher/Intern _____ Date _____

Supervisor _____ School _____ Grade _____

Lesson Content/Objective:

For each theme, underline or highlight on this form specific questions addressed in the lesson plan and during the observation. Circle on this form the appropriate quantitative evaluation to indicate evidence in planning and evidence in teaching for each new theme.

The numbers on the evaluation scales mean the following:

- 1. Inadequate
- 2. Minimally acceptable
- 3. Average
- 4. Very Good
- 5. Excellent
- NA Not applicable

NCSS Theme I: Culture and Cultural Diversity

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **culture** and **cultural diversity**.*

Description: The study of culture prepares students to answer questions such as:

What are the common characteristics of different cultures? How do belief systems, such as religion or political ideals, influence other parts of culture? How does the culture change to accommodate different ideas and beliefs? What does language tell us about culture? In schools, this theme typically appears in units and courses dealing with geography, history, sociology, and anthropology, as well as multicultural topics across the curriculum.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

Adapted from the Thematic Standards Teacher Evaluation form found on the NCSS web-site.

NCSS Theme II: Time, Continuity and Change

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **time continuity** and **change**.*

Description: Human beings seek to understand their historical roots and to locate themselves in time. Knowing how to read and reconstruct the past allows one to develop an historical perspective and to answer questions such as: Who am I? What happened in the past? How am I connected to those in the past? How has the world changed and how might it change in the future? Why does our personal sense of relatedness to the past change? This theme typically appears in courses in history and others that draw upon historical knowledge and habits.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme III: People, Places and Environments

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **people, places, and environments**.*

Description: The study of people, places and human-environment interactions assists students as they create spatial views and geographic perspectives of the world beyond their personal locations. Students need the knowledge, skills, and understanding provided by questions such as:

Where are things located? Why are they located where they are: What do we mean by "region"? How do landforms change? What implications do these changes have for people? In schools, this theme typically appears in units and courses dealing with area studies and geography.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme IV: Individual Human Development and Identity

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of ideas associated with **individual human development and identity**.*

Description: Personal identity is shaped by one's culture, by groups, and by institutional influences. Students should consider such questions as:

How do people learn? Why do people behave as they do? What influences how people learn, perceive and grow? How do people meet their basic needs in a variety of contexts? How do individuals develop from youth to adulthood? In schools, this theme typically appears in units and courses dealing with psychology and anthropology.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme V: Individuals, Groups and Institutions

*Teachers of social studies at all levels should provide developmentally appropriate experiences as they guide learners in the study of **interactions among individuals, groups, and institutions**.*

Description: Institutions such as schools, churches, families, government agencies, and the courts play an integral role in people's lives. It is important that students learn how institutions are formed, what controls and influences them, how they influence individuals and culture, and how they are maintained or changed. Students may address questions such as:

What is the role of institutions in this and other societies? How am I influenced by institutions? How do institutions change? What is my role in institutional change? In schools, this theme typically appears in units in courses dealing with sociology, anthropology, psychology, political science, and history.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

CSS Theme VI: Power, Authority and Governance

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **power, authority, and governance**.*

Description: Understanding the historical development of structures of power, authority, and governance and their evolving functions in contemporary U. S. society and other parts of the world is essential for developing civic competence. In exploring this theme, students confront questions such as:

What is power? What forms does it take? Who holds it? How is it gained, used, and justified? What is legitimate authority? How are governments created, structured, maintained, and changed? How can individuals' rights be protected within the context of majority rule? In schools, this theme typically appears in units or courses dealing with government, politics, political science, history, law, and other social sciences.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme VII: Production, Distribution, Consumption

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of how **people organize for the production, distribution, and consumption of goods and services.***

Description: Because people have wants that often exceed the resources available to them, a variety of ways have evolved to answer such questions as:

What is to be produced? How is production to be organized? How are goods and services to be distributed? What is the most effective allocation of the factors to be produced (land, labor, capital, and management)? In schools, this theme typically appears in units in courses dealing with economic concepts and issues.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme VIII: Science, Technology, Society

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **science and technology.***

Description: Modern life as we know it would be impossible without technology and the science that supports it. But technology brings with it many questions: Is new technology always better than old? What can we learn from the past about how new technologies result in broader social change, some of which is unanticipated? How can we cope with the ever-increasing pace of change? How can we manage technology so that the greatest number of people benefit from it? How can we preserve our fundamental values and beliefs in the midst of technological change? This theme draws upon the natural and physical sciences and the humanities, and appears in a variety of social studies courses, including history, geography, economics, civics, and government.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme IX: Global Connections and Interdependence

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **global connections** and **interdependence**.*

Description: The realities of global interdependence require understanding the increasingly important and diverse global connections among world societies and the frequent tension between national interests and global priorities. Students will need to be able to address such international issues as health care, the environment, human rights, economic competition and interdependence, age-old ethnic enmities, and political and military alliances. This theme typically appears in units in courses dealing with geography, culture, and economics, but may also draw upon the natural and physical sciences and the humanities.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

Comments/Suggestions:

NCSS Theme X: Civic Ideals and Practices

*Teachers of social studies at all school levels should provide developmentally appropriate experiences as they guide learners in the study of **civic ideals** and **practices**.*

Description: An understanding of civic ideals and practices of citizenship is critical to full participation in society and is a central purpose of the social studies. Students confront such questions as:

What is civic participation and how can I be involved? How has the meaning of citizenship evolved? What is the balance between rights and responsibilities? What is the role of the citizen in the community and the nation, and as a member of the world community? How can I make a positive difference? In schools, this theme typically appears in units or courses dealing with history, political science, cultural anthropology, and fields such as global studies, law-related education, and the humanities.

| | | | | | | |
|----------------------|---|---|---|---|---|----|
| Evidence in planning | 1 | 2 | 3 | 4 | 5 | NA |
| Evidence in teaching | 1 | 2 | 3 | 4 | 5 | NA |

The University of Scranton
Student Teaching Evaluation for Science Education Candidates

Candidate Name: _____

School Assignment: _____ Content area: _____

Category 1: Planning and Preparation

Planning Instruction:

| <i>Question regarding performance</i> | 5 pts – consistent performance | 4 pts – nearly all of the time | 3 pts – frequently | 2 pts – not often: Unacceptable | 1 pt – never: unacceptable | N / A : Not Applicable |
|---|--------------------------------|--------------------------------|--------------------|---------------------------------|----------------------------|------------------------|
| Relates lessons to state and national standards | | | | | | |
| Accounts for special needs, abilities and backgrounds of students | | | | | | |
| Plans to utilize community resources | | | | | | |
| Relates science issues to various stakeholders and community | | | | | | |

Planning Assessment:

| <i>Question regarding performance</i> | 5 pts – consistent performance | 4 pts – nearly all of the time | 3 pts – frequently | 2 pts – not often: Unacceptable | 1 pt – never: unacceptable | N / A : Not Applicable |
|---|--------------------------------|--------------------------------|--------------------|---------------------------------|----------------------------|------------------------|
| Utilizes multiple assessment strategies aligned with curriculum and instruction | | | | | | |
| Utilizes formative assessment | | | | | | |
| Assists students to reflect on their own achievement | | | | | | |

Category II: Classroom Environment:

Safety Issues:

| <i>Question regarding performance</i> | 5 pts – consistent performance | 4 pts – nearly all of the time | 3 pts – frequently | 2 pts – not often: Unacceptable | 1 pt – never: unacceptable | N / A : Not Applicable |
|---------------------------------------|--------------------------------|--------------------------------|--------------------|---------------------------------|----------------------------|------------------------|
| Is safety statement posted | | | | | | |
| Was safety statement discussed | | | | | | |
| Was safety discussed each activity | | | | | | |
| During activity, is it enforced | | | | | | |

Treatment of living things:

| | | | | | | |
|--|--|--|--|--|--|--|
| Animal/plant policy posted | | | | | | |
| Animal/plant policy discussed regardless of content area | | | | | | |
| Animal/plant life treated respectfully | | | | | | |

General Candidate Observations:

| | | | | | | |
|---|--|--|--|--|--|--|
| Maintains an open and welcoming environment | | | | | | |
| Treats students with respect | | | | | | |
| Candidate shows sensitivity to all students of diverse backgrounds and/or special needs | | | | | | |

Category III: Instructional Delivery**Content Knowledge:**

| <i>Question regarding performance</i> | 5 pts – consistent performance | 4 pts – nearly all of the time | 3 pts – frequently | 2 pts – not often: Unacceptable | 1 pt – never: unacceptable | |
|--|--------------------------------|--------------------------------|--------------------|---------------------------------|----------------------------|--|
| Does teaching reflect state and national science standards | | | | | | |
| Explanations of science clear and free of misconception | | | | | | |
| Techniques used represent a variety of approaches and include inquiry | | | | | | |
| Inquiry used with students was at an appropriate level and done successfully | | | | | | |

Methodology:

| <i>Question regarding performance</i> | 5 pts – consistent performance | 4 pts – nearly all of the time | 3 pts – frequently | 2 pts – not often: Unacceptable | 1 pt – never: unacceptable | |
|---|--------------------------------|--------------------------------|--------------------|---------------------------------|----------------------------|--|
| Engages students effectively in linking content to social issues | | | | | | |
| Assists students understand risk, costs and benefits | | | | | | |
| Adapts instruction given the students' various abilities, backgrounds, special needs, and assessment of achievement | | | | | | |
| Effectively utilizes small groups for labs, cooperative and collaborative learning arrangements | | | | | | |
| Utilizes previous learning, beliefs, etc as base to build new knowledge | | | | | | |

Category IV: Professionalism

Professional Behavior:

| <i>Question regarding performance</i> | 5 pts – consistent performance | 4 pts – nearly all of the time | 3 pts – frequently | 2 pts – not often: Unacceptable | 1 pt – never: unacceptable | |
|---|---------------------------------------|---------------------------------------|---------------------------|--|-----------------------------------|--|
| Engages actively and continuously to learn and excel beyond minimum requirements | | | | | | |
| Reflects on teaching success and failures | | | | | | |
| Utilizes information from supervisors and cooperating educators to grow and learn | | | | | | |
| Interact effectively with colleagues, parents and students | | | | | | |
| Demonstrates familiarity with appropriate professional organizations and efforts | | | | | | |

The addendum is completed by the University Supervisor and Cooperating
